### **3. Registration Website**

As you may have noticed, PIBA has changed our online registration provider. This new system allows greater flexibility for our participants in finding and registering for PIBA events and updating your contact information. The first time you log in, you will be prompted to set your personal password. The netForum OnDemand system uses a simple shopping-cart checkout process, so you know exactly for which events you've registered. There are plans for future improvements to the site, including immediate membership renewals, online event materials, and more.
