Thank you for your interest in the Pacific Industrial and Business Association. This newsletter contains information about upcoming PIBA events and messages from PIBA. We hope this information will be useful to you. We urge you to forward this message along to peers or coworkers that would also receive benefit from this newsletter. If you have received this newsletter from a friend or co-worker and would like to be added to the mailing list, or if you are a member of PIBA and would like to add other members of your company, please contact our office: piba@piba.org

Thank you for your involvement and support!

1. Northern California Facilities Expo:

PIBA recently attended the Northern California Facilities Expo in Santa Clara. At the PIBA booth, individuals were able to meet with Board members, learn more about the organization and our plans for future events. If you had a chance to drop by, it was great to meet you! If you weren't able to attend the Expo, perhaps we will see you next year. If you have any follow-up questions from the Expo, be sure to email the office, piba@piba.org.

2. Upcoming Events:

5th Annual Regulatory Conference **November 12, 2009**

At this full-day conference, attendees will be provided with comprehensive and focused discussions from regulatory representatives and subject matter experts on pertinent issues that all of our businesses, clients, EH&S, Facilities Managers and consulting professionals encounter on a daily basis. More information and registration information will be available in the near future, as we confirm our speakers and content. Please watch the PIBA site for new developments!

Occupational Health and Safety Risk Management Workshop **November 19, 2009**

This half-day workshop will present key aspects of management of chemical risks. Learn from health and safety experts about techniques of risk assessment, risk reduction and risk communication with particular emphasis on chemical risks. The workshop will include presentations on:

1. Chemical Risk Assessment
2. Probability and Consequence Analysis Techniques for Laboratory Safety Risks

3. Risk Communication Techniques.
